

SpindleGard™ Cotton Picker Grease

Product No: 501772

Description

SpindleGard™ Cotton Picker Grease is a high performance, lithium-based grease specifically designed for high speed spindles and heads found on cotton pickers.

Made in our Kansas City, Missouri plant, SpindleGard starts with premium base oils that help retain performance, lubrication, and film consistency in extreme temperatures. The base oils are combined with a lithium soap complex that resists caking on the picker bars which can prevent proper lubrication of the picking assembly. SpindleGard uses a state-of-the art additive package that includes anti-wear additives and rust inhibitors, extending the service life of your cotton picker's moving parts and preventing costly downtimes during harvest.

Benefits

- Prevents dirt, water, and other containments from entering bearings and other lubricated parts
- Anti-wear additives resist wear on moving metal surfaces
- Protects against rust
- Consistent film strength in extreme temperatures

Features

- Meets NGLI "00" specification

PERFORMANCE RATING

Meets or exceeds OEM requirements
